

A SUCCESSFUL SCHOOL FAIR AND CONCERT

The Gleichen fifth annual School Fair may well be classed another year, especially when the weather, postmen and other conditions factors into consideration.

While the children had had enough in some localities to contend with in plans to see that they were sports enough to bring the entire, which was more than many of their fathers might have done under similar conditions. It is at least so that the boys and girls are sincere in their efforts and it is only right that this spirit should be encouraged.

While the entire this year were not up to former years for various reasons (and lacking out in together) however, the quality of the exhibits made up for any shortage in quantity, although in some classes the number of entries were not so great as in former years. The school work and hymn-singing, M. H. and individual art, and the numerous and really wonderful work for children and the judge certainly the sure of hand work in arriving at his decisions.

The cooking was also a marvel, which was supplied by the teachers and it was difficult for some to believe it possible that the children of five, six and seven could make such looking cakes, pies, or preserves and pickles such good edible looking food. Vegetables and other things were well cooked and certainly they could not resist the temptation to sample them.

The vegetable department was filled to overflowing and perhaps was not so bad to better than to quote the results of one of the judges, Mr. H. D. Dalrymple:

"The display in this section was generally good, many fine exhibits being shown, especially from districts where there is irrigation, and where growth had not been retarded by hail. Carrots were the outstanding show, several entries being up to professional standard. There is a noticeable inclination to show fine stuff which has a tendency to crowd me and I would suggest that when selecting to study varieties, mind the conform to their character, mind the well-shod and well-shod, and men as a usually a better quality and as a rule favored. In several cases, there was no sufficient note left to tie the bunch across, and there is risk of an entry scattering, thus getting lost, and the exhibit being passed over by the judge. Only one entry in each class by a competitor is considered. Favors with long stems arranged lightly in the vase show to better advantage than in a tightly packed bunch."

The show for the various departments were as follows:

Flax Stock—G. D. McMillan, of the Gleichen branch of the Gleichen branch.

Grain and Vegetables—H. G. Dalrymple and Major McMillan.

Home Work and Art—Mr. H. D. Dalrymple.

Sewing—Madame Barthelemy.

Cooking—Madame Evans, Henderson and Fisher.

The showing of live stock which was very good, and it is hoped more boys and girls will take an interest in this department at all future fairs.

Friday night the Gleichen School Fair concert was given in the Community Hall, when every seat was occupied and a number were obliged to stand throughout the evening. The music was very strong and it was deeply regretted that the children from Crowfoot, Shamrock, Elwood and Haverhill were not able to be present and just a few from Altan school, thus leaving the Gleichen and Gleichen school as the entertaining, the program therefore, was necessarily cut short as it had been hoped each school from schools would give at least two numbers, and the Crowfoot school had

ALBERTA POOL STARTS NEW CAMPAIGN

Alberta grain growers are advised that the Alberta Wheat Pool has inaugurated a new campaign for membership and that this campaign is being conducted on a different basis than others in the past, either in Alberta or the other two provinces.

The wheat pool has had its greatest success in this province. Here the original was worked out. The legal details in connection with incorporation, the new members of association, the members' agreement and the by-laws were first considered in Alberta, and when carefully perfected, were the basis for the organizations subsequently brought into existence in Saskatchewan and Manitoba.

Much of the success of the pool in the beginning when those in charge of organization had this work in Alberta paved the way. The wheat pool here has made remarkable progress.

The success of the last two years as regarded the directors of the pool, who had to work in a campaign for members at this time. The campaign is now begun and it will be carried out to the end of the year. In the past all canvassing had been done voluntarily with no payment for services rendered, but now the pool is therefore open to anyone who wishes to join in the campaign, but who can claim to any other office of the board of directors or any employee of the association. Agents and local secretaries are therefore to participate in the campaign and receive commission.

The commission is \$1.50 per bushel. If the membership of the pool in each—the fee is \$3—the commission may reach \$1.50 to the head office of the wheat pool at Calgary and to remain the basis of his commission.

When the note form is signed by the grower on the contract for the sale of wheat, the sum of \$1.50 will be paid by bill of exchange to the grower, but it must be a bona-fide wheat grower of the province, the contract must be complete as to full name of the grower, his address, location of the wheat, and the number of acres shown in what in 1925, and the signature properly witnessed.

In all cases contracts must be accompanied by a canvasser's report, properly filled out, with the full name of the canvasser and address properly shown. This is necessary so that the head office may send the commission to the proper party.

Contract forms, canvasser's report forms, and self-addressed envelopes are being sent to all wheat pool agents, "what pool" local secretaries, secretaries of U.F.A. locals and municipal secretaries, to any of whom canvassers may apply for supplies, or they may send for supplies direct to the head office of the pool at Calgary.

WHIST DRIVE AND DANCE
FRIDAY, OCTOBER 2ND

A whist drive and dance under the auspices of the Gleichen Branch Band will take place in the Community Hall on Friday evening, October 2nd, commencing at 8 o'clock. The admission for the evening's entertainment, including whist, dance and lunch, will be 50c. This is one of the several entertainments which the pool boys intend putting on this fall and winter so come and spend a book. Everybody is welcome. Band in attendance.

The quarterly communion service will be held at the United Church on Sunday evening at the usual hour. All members and friends are urged to be present at this service. The new communion table recently presented to the congregation will be used for the first time. The usual preparatory service will be held on Friday evening at eight o'clock.

Mr. J. C. Buckley, M. L. A. informs us that the Progressive candidate will speak in Gleichen if invited to do so by the citizens of this town, but not otherwise. He will, however, speak at the Westbrook Community Hall. By all means invite him. We will want to hear what he can do for us at this time. It is fully expected that Mr. Garland will appear at the convention to-morrow, and it is that he is a beautiful man, but that his friends in the country fear he will not be given a welcome in town. Supply our citizens not to send him but that they will want to hear the choice of the majority of electors.

MILO IS VERY RAPIDLY GROWING INTO A TOWN

BY JOHN GLAMBECK

I was down in Milo a few weeks ago, and as it was before the rainy season started things looked exceedingly good. This summer being on the road helping to organize the various co-operative pools I have seen different co-operative pools in all parts of the country—good, bad and indifferent. In both central and northern Alberta I have seen some excellent farming country, in spite of the fact that it is all around, considering the difficulty of clearing the land, hail and early frost, I fully believe that as far as grain growing goes, there is no better district in Alberta than the country along the new branch of the Lemnaw-Hollick road.

Take it year in and year out the country from the north end of Lake McGregor to Camanche, including Milo, Majorsville, Quenston, Shallice, Arrowood and beyond is the country par excellence for grain growing.

I am aware that the farmers west of the ditch on the reserve and through the wooded country to have a little the best of it, perhaps, but then I noticed that quite often they were hailed, while Milo and Majorsville had never seen any damage during the past 18 years, and as far as grain growing goes, they have been here.

One day after threshing was well started we went to the top of Main Street at Milo, it slopes towards the depot, looking over the district. From where I stood I could see six threshing outfits working and from each of those threshing machines came a string of grain trains trailing the wheat direct from the grain spout to the elevators at Milo.

My mind went back to the eighteen years ago when we spent all winter hauling wheat to far away points, where, as a rule, after threshing was done, the wheat was loaded on a flatbed of mine and sometimes part of the summer too.

I thought about the first pioneers in those days when they had to haul in the late fall we had to haul to Gleichen around by the steel bridge to Banquo or to Vulcan, a distance of from 25 to 40 miles, depending on where one was located.

In those days we had to get up about 4 a.m., leave home long before daylight, feed half way, and get into town about dark the first day. Then unload and return home the next day, and sometimes it took three days to make the trip. As the price of wheat in those days was selling over 75 cents a bushel there was not much left after paying expenses.

It was a rather picturesque sight in those days to watch the long strings of 4 or 6 horse grain teams coming over the various picturesque trails, all loaded with wheat, but it always ran smooth, broken down rigs could often be found everywhere, the trails were not stuck in the mire or on clinging hills at the Arrowood creek or on those awful trails to the west of the river.

When elevators were built at (Jumpy it shortened the haul about ten miles, but we still had the ancient trails to contend with, that ferry crossing became a real nightmare to the farmers.

Usually in the late fall, after the wheat was hauled, the snow got so low it was difficult for the ferry to cross with big loads, and as the uppers of any tonnage got the crossing was slow.

It was the usual sight, when we arrived at the ferry about 10 or 11 o'clock, to see the ferry men waiting, and often the last team did not get across until late in the afternoon, and sometimes a farmer would try to

Continued from Page 1

**MILO IS VERY RAPIDLY
GROWING INTO A
TOWN**

Cluny till the next day.

Sometimes a farmer would try to
beat the game by getting up very
early, only to find when he got
down to the ferry that the rest had
done the same thing.

Then there were days when the
wind blew so hard the ferry could
not be operated and after waiting
all day for the wind to go down we
had either to camp over night in the
bush or walk back home leaving our
loads to the tender mercies of the
range cattle.

Late in the fall when the river was
full of slush ice, it became rather
dangerous to cross. Often horses
had to be used to pull the ferry ac-
cross and teamsters had to shove
with poles. I remember one chilly
November evening, when I was shov-
ing on a long pole, I accidentally fell
into the ice cold water and had to
drive home, twelve miles, in my wet
clothes.

Yes, those were the days of real
joy—I don't think.
Quite often teams got tangled up
on the ferry and loads dropped off
into the river, saving the farmer a
trip to Cluny.

Often between November 15th and
Christmas, on account of drift ice,
the ferry could not be run. Then in
order to get money to pay our notes
due we had to go to Gleichens by way
of Arrowood, or to Bassano—climb-
ing that steep slippery—Bassano
hill.

But as a rule most of the grain
was hauled across the ice to Cluny
during the months of January and
February as the river seldom froze
hard enough to haul a load across
until after Christmas.

Often the ice was heaped up in
such a rough shape—it took a small
army of men to cut a road across. I
remember one winter we had to ap-
peal to the provincial government to
help cut the road.

This hauling wheat, during the two
coldest months of winter, with the
thermometer hovering between 30
and 40 below, in snowstorms, etc.,
was not exactly a pleasure and most
of the time we had to walk along
side the team to keep from freezing.
But when we reached Cluny we got
wounded up all right for there usually
was a car shortage and we had to
shovel our loads into granaries, which
we had been compelled to buy lumber
for and build on vacant lots all a-
round Cluny.

In the spring when a car could
be had we had the pleasure to shovel
the wheat out of the granary and
haul it over to the freight car.

While the crossing on the ice was
all right as long as the cold weather
lasted, it became very dangerous
when it began to thaw in early March
and there was hardly a year when
farmers did not lose valuable teams
by dropping through the ice, and in
some cases the driver had narrow
escapes from drowning.

The building of the bridge east of
Cluny did away with much hardship,
still the distance to town remained
the same and the river hills had to
be climbed. However the building
of the railroad has changed all this,
and with the railroad so close at hand
that the wheat can either be hauled
direct from the threshing machine or
two trips a day can be made, with
good yields and the wheat pool sta-
bilizing the prices, the farmers in this
district, to say the least, have as
good prospects ahead of them as the
farmers in any other district in Al-
berta.

From the standpoint of town mak-
ing it would have been better had
the town been laid out on Ole Nel-
son's land as first intended by the
railroad company, it would have made
one real good town. Still the way
it has turned out, with short distances
between towns, it makes the grain
hauling so much shorter and is best

looking at it from the farmers
standpoint, and, after all, this road
was built principally to benefit the
grain growers.

A great rivalry exists between the
two towns Milo and Queenstown, and
each farmer is certainly boosting the
town nearest him for all he is worth,
and which ever district you happen
to be in you had better not say any-
thing favorable about the town in the
other district or they will mob you.

I visited both towns and noticed
great improvements in both, al-
though Milo, so far has made the
greatest progress. Development in
Queenstown has been held up owing
to the fact there was trouble over
getting the title for the townsite un-
til recently.

Milo has certainly made great pro-
gress since last spring and if the
five foot coal seam, discovered a mile
north east of town on the old Cos-
grove homestead, can be developed it
will help the town immensely.

When I was in Milo the third eleva-
tor was nearly completed and the
fourth about to be started.

There was a good lumber yard, a
coal and wood yard, and the second
livery barn was being built.
Booth Main street and the roads
leading into town have been graded
and Main street is fronted by two
rows of substantial looking stores.

Milo has two of the best stocked
hardware stores in any small town
outside of Calgary. One of these is
operated by Mr. Phillips, formerly of
Lomond, while St. Peter, who used to
run the old Milo general store, has
the other and also holds the agency
for the International Implement Co.

There are two good grocery and
general stores, one run by Sam John-
son, who formerly clerked at the old
Milo store and the other one operated
by Mr. Mathews (I think) who also
acts as paymaster for the elevators.
Ferngreen, the butcher from old Milo
put up a good building for a meat
market and general store, but has
sold out to another party.

Milo has two garages, one run by
L. Johnson, formerly of old Milo, and
the other by H. Mensinger, formerly
of Vulcan. Milo also boasts of harness
shop, shoe repair shop, and Nels
Monson, one of the best blacksmiths
on Southern Alberta, is now perman-
ently located here.

The phone central has been moved
from old Milo and is still being oper-
ated by the two young ladies, Miss
Vinge and Miss Johnston. Frank
Harvey holds the job as post master
besides running a coal yard and being
the local representative of John D.
Rockefeller, in the oil business. Two
up-to-date restaurants, ice cream
parlors with rooms above are oper-
ated by two enterprising Chinese.

Higgins, the popular barber, still
keeps his barber shop and pool room
underground, but rumor has it that
he is erecting a building for a drug
store on top.

Last but not least a big hotel was
under construction and is probably
finished by this time, and soon the
good citizens of Milo will be able to
partake of some of the stuff, which
in the good old days, made Milwau-
kee famous.

Readers of this must bear in
mind that I have described Milo as
seen over a month ago. Since then
no doubt other business enterprises
have come, so do not blame me for
not mentioning them. I might also
state that Milo has two dray men
Charles McIntyre and John Kidd,
while Mrs. Shore supplies the town
with Milk. Milo was also being
supplied with water sold by the bar-
rel, but perhaps by this time a town
well has been drilled.

Courtesy to customers collects the
coin.

There never will be anything made
but what someone else will make it
worse and sell it for less. That is
brute nature.

Spend your money at home and you
have a chance to get it back. Send
it out of the country and it is gone
forever.

CALGARY

The first trip of the Canadian
Pacific S.S. Princess Kathleen from
Vancouver to Seattle via Victoria
was recently made under most suc-
cessful conditions. The people of
Seattle are so enthusiastic over the
increased coastwise service that
they have tendered an address of
thanks to Captain Troup, manager
of the Canadian Pacific Coastal ser-
vice.

There is every possibility that the
Provincial Government of British
Columbia may this year complete
the construction of the scenic high-
way connecting Golden on the main
line of the Canadian Pacific Rail-
way with the summer resorts of
Banff and Lake Louise. When this
link, much of which was built dur-
ing the past two seasons, is com-
pleted it will make one magnificent
triangle through the heart of the
Canadian Rockies.

Building permits issued in Cana-
da during the first quarter of 1925
were 10.2% and 1.2% greater than
in the first three months of 1924 and
1923, respectively. There were also
5.5% greater than in the first quar-
ter of 1922, 46.5% higher than in
1921 and 4.3% above the 1920 total.
The aggregate value of building
permits issued for the first quarter
of 1925 was \$19,672,637, compared
with \$17,846,969 for 1924 and \$19-
441,159 for 1923.

During the siege of Paris in 1870
letters limited to twenty words were
delivered in the French capital by
pigeon-post, half a franc a word be-
ing charged by the postal authorities.

Election Date October 29th
How Many Votes will be Cast?

A Five Thousand Dollar Cheque would look good to some
reader of The Gleichens Call?

The Gleichens Call has joined with the Family Herald
and Weekly Star of Montreal in a most interesting con-
test in which Ten Thousand Dollars are offered in cash
prizes.

The date of the Federal Election is set for October
29th, next. At the last Federal election out of a total
voters list of 4,435,310 names only 3,119,306 votes were
cast.

How many votes will be cast in the Federal Election to be
held October 29th

Prize List—A Total of Ten Thousand Dollars

To the subscriber who sends the correct estimate	\$5,000
To the subscriber who sends the nearest correct estimate	\$2,500
To the subscriber who sends the second nearest correct estimate	\$1,000
To the subscriber who sends the third nearest correct estimate	\$ 500
To the subscriber who sends the fourth nearest correct estimate	\$ 200
To the next ten subscribers who send in the next nearest correct estimate—\$25.00 each	\$250
To the next twenty-five who send the next nearest correct estimate—\$10.00 each	\$250
To the next sixty who send the nearest correct estimate—\$5 each	\$ 300

A Total of\$10,000
100 PRIZES IN ALL

NOW READ THIS OFFER

We now offer a full year's subscription to both papers for
only \$2.50 and will allow each subscriber the privilege of
making two estimates in the contest. All subscription
arrears due The Call must be paid up.
This contest closes at this office on Thursday, October
22nd as all estimates must reach the Family Herald be-
fore October 29th.

**NOW IS YOUR OPPORTUNITY TO WIN
FIVE THOUSAND DOLLARS**

Leave \$2.50 for your order at The Gleichens Call Office.

The Coming General Election

The outstanding event of the week in which this article is written was the dissolution of Parliament and the calling of a general election to take place next month to choose a new House of Commons. This is a matter in which every citizen of Canada is vitally interested regardless of individual party views and affiliations or position occupied in the economic life of the Dominion.

The fortunes of political parties are not the concern of this particular column; what we are concerned about are the fortunes of the Dominion of Canada, and, in particular, of Western Canada because of a profound conviction that it will only be through the settlement, the development, the prosperity of this vast western land that permanent growth and prosperity will come to the Dominion as a whole. Support given, or opposition voiced, in this column to any given policy in the past, or that may be given or voiced in the future, is not because such policy may originate with any particular political party, but because of its bearing on Canada's progress and prosperity.

In the coming election, as in all elections, many conscientious voters will find themselves in some way of a quandary just how to mark their ballot paper. They not only will be called upon to choose from among the candidates offering for election the man or woman to be their representative at Ottawa, but, while making that choice, they must also render a verdict on the larger national issue of the policies and group of men they desire to rule at Ottawa.

Because of this double responsibility, many voters find themselves in difficulties. If it was merely a case of selecting their local representative, the task would be comparatively simple, namely, voting for the candidate who in their judgment was the most upright, the ablest, best informed and most intelligent, and therefore likely to prove the most capable representative. But it is not infrequently happens that this particular candidate is standing in support of policies and leaders which the individual voter is not prepared to support, while a less capable man is the candidate supporting policies and leaders in which he has confidence. The problem is there, but in the final analysis it must be decided by the voter.

One thing the individual voter can do, and that is to use all his influence to secure the selection of a candidate in whom he has every confidence as a local representative by the party whose policies he supports and in whose leaders he has confidence. Such action on his part is one of the duties of citizenship which the individual voter owes to his country.

Another course of action on the part of the individual voter is to refrain from pledging his support to any one candidate until all the candidates are in the field, and the opposing policies of the contending parties are clearly outlined and understood. Nobody should pledge such a valuable thing as their vote "in the dark" and without full knowledge of all the facts which have a bearing in the election.

In the approaching election there is another and grave consideration which must influence the voter in the marking of his ballot. Since Confederation, with the exception of the last four years, the party in power at Ottawa, whether Liberal, Conservative or Unionist, has always commanded a substantial working majority. It was able to govern, and if it was guilty of neglect and failure to grapple and deal with national problems, the responsibility squarely on its shoulders.

During the past four years the Government of the day did not possess such a majority. The House of Commons was divided into three distinct groups, each with policies of their own. The outstanding feature of Conservative policy was wholly unacceptable to the Progressive group and to the vast majority of the Government following; the principles and primary features of Progressive policy were equally unacceptable to the Conservatives and to a certain section of the Liberals. Inasmuch as the Government of the day had to depend upon the support of one group or the other, a deadlock usually resulted, and party considerations and manoeuvrings became paramount to the national welfare and progress.

As a result, Canada has drifted at a time when decisive action was urgently needed. Everybody recognizes the situation. The Opposition make it a charge against the Government; the Government admits the situation has existed but holds itself blameless in view of the conditions which confronted it. Great Britain suffered from exactly the same situation until an election became imperative. Then the people put an end to an impossible situation by returning one party with an overwhelming majority and a clear mandate to govern. In the last United States election the voters were faced with a similar problem, and they, too, decided in the interests of good government to give one group a clear and substantial working majority.

In the election next month the voters of Canada must face this issue and decide it. Regardless of the outcome of the voting, it is important that decisive action one way or the other be taken, and an end put to present indecision and drifting leading to worse than stagnation in the development and carrying into effect of policies and reforms calculated to promote the national welfare.

Mother Receives War Hero's Watch

Mrs. Lillian Cross, of Hurleyville, N.Y., whose son, Charles, was killed eight years ago in the war, has just received from France articles found in his pockets. The body was recently removed for permanent burial. The articles include three French coins and his watch, which is intact, although the case is rusty and the face splintered.

Find Fly Fossils

The tsetse fly, which in Africa carries the germ of sleeping sickness, has been found in Colorado. But there is no cause for alarm, for the flies have been dead and buried for thousands of years and are known only by their fossil remains preserved in rock deposits near the foot of Pike's Peak. They were found by an expedition from the University of Colorado.

Latest Triumph Of British Optical Industry

Make Better Lenses Than Any Other Country In World

A cinematograph machine which will take 4,800 pictures a second is one of the latest triumphs of British makers of optical instruments. It can be used to show, for example, the effect of the impact of projectiles on armored plate.

This is only one of the many remarkable results achieved since the war which have placed the British optical industry far ahead of foreign rivals. Before the war, lenses ground in Germany were believed to be the best; now, British lenses are being bought by the German Government for German state institutions.

Swollen Joints, Quickly Limbered Up

Rub On Nerviline

You would be surprised at the wonderful action of "Nerviline" in just such cases. Being thin and not an oil preparation, it is able to penetrate quickly, and down it sinks into the tissues, carrying its healing, soothing action wherever it goes. For stopping muscular or nerve pain, for easing a stiff joint, Nerviline is a complete success. Pain, soreness, stiffness all vanish before the magic power of this wonderful liniment. Nearly fifty years of success proves the merit of Nerviline, which is sold everywhere in large 25 cent bottles.

Paper Made From African Grass

Paper made from esparto, an African wild grass, has been produced by the bureau of standards on a commercial basis and samples have been made available to American industry as a government test. The bureau's reports show that the imported grass pulp, after cleaning gave a 60 per cent yield of papermaking fibre.

NEARING A BREAKDOWN

A Condition That Calls For a Reliable Tonic

Many women give so much of their time to the cares of their household that they neglect their own health and sometimes reach the verge of a breakdown before they realize that their health is shattered. Often heart palpitations violently at first, then exertion, the stomach fails to digest food and discomfort follows. The weak and they are known.

This condition requires immediate treatment with such a reliable tonic as Dr. Williams' Pink Pills which enrich and build up the blood, carrying renewed energy to every part of the body. The value of Dr. Williams' Pink Pills in a rundown condition is proved by the following statement from Mrs. A. E. McInnes, Bowman River, Man., who says: "About a year ago I had a serious illness which left me very anemic. I was not able to get around to do my work; in fact I could scarcely walk. I was troubled with palpitation of the heart with the least exertion. One day a friend advised me to try Dr. Williams' Pink Pills as they had done her much good. I followed this advice and took the pills for some weeks when I felt as well as ever. I have since been able to attend to all my household duties. The dizziness and palpitation have left me and I bless the day I tried Dr. Williams' Pink Pills. They are just the medicine for those who are weak and rundown."

You can get these pills from any dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Rifians Are Good Fighters

Are Holding Their Own Against France and Spain

The Rifian tribesmen in Morocco will be able to maintain their independence against the French and Spaniards for some time. In the opinion of Sir Charles Hobhouse, former British army officer, and ex-postmaster-general, who has returned to London from inspecting the condition of the Rifian refugees at Tangier, on behalf of the League of Nations.

"Despite grandiose stories, the Rifians are holding their own against France and Spain," he told the newspapermen. "It will undoubtedly be a case of Europe against Africa, if the war is carried on, and it looks as if Africa will hold her own, and a little more."

"The Rifis are great fighters. They have up-to-date equipment, and their leader, Abd-el-Krim, is a man of remarkable military capacity."

Ottawa, in Canada; Sydney, Melbourne and Perth, in Australia; and Pretoria in South Africa, all have the right to mint their own gold coins.

The bones and muscles of the human body are capable of more than 1,200 different motions.

Destruction of livestock by wolves during the last year in Russia entailed a loss of 4,000,000 gold rubles.

HARD PIMPLES ALL OVER FACE

For About Three Years. Healed by Cuticura.

"I had trouble with pimples and blackheads for about three years. The pimples were scattered all over my face and were hard and red. They itched and burned a lot causing me to scratch and the scratching caused eruptions. My face looked so badly that I was ashamed to go out."

"I began using Cuticura Soap and Ointment and they helped me. I continued the treatment and in two months I was completely healed."

(Signed) Miss Helen Budnik, R. 1, Box 11, Necedah, Wis., Sept. 27, 1924.

Rely on Cuticura Soap, Ointment and Talcum to keep your skin clear.

Sample Each Free by Mail. Address Canadian Depot, "The Cuticura Co., Montreal, P. Q. Cuticura Soap 25c.

Scared the Passengers

A Hampstead tube train was leaving Heston Park Station, London, when there was a loud bang. Several women screamed, the conductor looked uneasy, one housewife with a handful of parcels jumped up and made for the door.

A child sobbed—and looked reproachfully at her right hand, which held a piece of string and the fragments of a "toy" balloon.

Like a Grip at the Throat. For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted and finally, though the attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedial agent. It immediately relieves the restricted air passages as thousands can testify. It is sold by dealers everywhere.

Last of the Peace Pipes

Ancient Indian Curio Sent to New York From Saskatchewan

Swathed in its original wrappings, some of the inner materials being hundreds of years old, one of the oldest relics on the American continent is now on its way to New York to its long rest in the museum of American History Foundation, an institution devoted exclusively to Indian relics.

B. A. Carlzow, curator of the museum, was in Regina recently after more than a month spent in the various reserves in Saskatchewan. He secured a mass of old knives, arrows, blankets, beads and other trinkets, but the prize he was after and secured was possibly the last of the peace pipes retained by the Crees.

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

No Shortage Of Insulin

Prof. J. J. R. MacLeod, of the University of Toronto, who was associated with Dr. Banting in the discovery of insulin, addressed the physiological section of the British Association for the Advancement of Science, saying that insulin was procurable in great quantities from the islet tissues of fishes. There could be an enormous yield of insulin from this source, but there was no longer any shortage, as insulin could be obtained in quite sufficient quantities from the pancreas of the ox.

Printer's Sick Stomach and Headaches Almost Cost Job

Mr. K. M. Collins of Woodhaven, N. Y., says, "Instead of plodding through my work wearily on account of sick headaches and sour stomach, I now enjoy good health and ambition, can do more and better work and life is worth living. I have never before given my name to advertise a medicine, but you cannot imagine how different I feel since I discovered Carter's Little Liver Pills."

Carter's Little Liver Pills tone the whole system through the liver and bowels. They act as a mild and effective laxative, in a gentle manner without any bad after effects.

Recommended and for sale by all drug stores.

Chinese Law Very Strict

Offenders All Treated the Same in Their Courts

When Lord Palmerston, in 1833, tried to force a bill through the House of Commons to establish an extra territorial court in China in civil and criminal cases it was defeated through the opposition of Sir James Graham and other sound lawyers, who refused to be parties to the creation of a tribunal which would interfere with an "independent power" like China.

As a matter of fact, the objection made to Chinese law by countries whose nationals got into trouble there was that it was too strict and too well enforced.

For example, all murders looked alike to the Chinese courts, and so drunken sailors ashore who killed somebody for fun naturally wished to be tried by European judges who would consider the mitigating circumstances.

It is about time for people to wake up to the fact that Chinese legal ideas, like her arts, were very advanced when Europe was in a state of barbarism.—New York Telegram.

Tourist Traffic Extending North

Northern Rockies Will Be Mecca of World Says Louis W. Hill

"World tourist traffic is tending north. This generation will see the time when the Northern Rockies will be the Mecca of the wealth and society of Europe and America. The next generation will see the development of Alaska as the centre of the world tourist traffic." This is the opinion expressed here by Louis W. Hill, president of the Great Northern Railway, and son of the famous founder of the road, James J. Hill.

Mr. Hill, who is motoring through the Canadian Rockies with William Kenny, vice-president of his road, expresses the hope that the United States will copy the superior park laws and highways which he has found north of the border.

As the one to whom credit is given for discovering and opening up Glacier National Park, Montana, Mr. Hill believes that good auto roads are now the strongest medium for developing the tourist possibilities of a country. Such roads as the Banff-Windermere highway will in the next generation stretch clear into the wilds of Alaska, he predicted.

Worms in children work havoc. These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon the interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

According to Sir Ian Malcolm, when the late Lord Curzon was Viceroy of India, a street banner of welcome bore the words, "God Bless Our Honorable Lord." This apparently was the nearest the natives could get to "Honorable Lord."

Corns are painful growths. Hollaway's Corn Remover will remove them.

Using New Type Of Fighting Plane

French Machine Carries Heaviest Armament Ever Used

The French in Morocco are using a new type of fighting plane carrying the heaviest armament ever used. It is made of metal with bullet-proof tank. Besides machine guns the planes carry special quick-firing guns of a calibre of one and a half inches. Each plane is manned by a crew of five men.

The new planes belong to the naval air service. Possessing a large radius of action, they are considered the most powerful machines of the air today.

Among other new weapons the French are experimenting with is an appliance enabling bombers to throw hand grenades 150 yards.

The fattest man who ever lived was probably Daniel Lambert, who was born at Leicester, England, in 1770, and died in 1809. His weight was 739 pounds. A group of a dozen young men once stood within a buttoned waistcoat that had belonged to Lambert.

"My dear, the doctor says a brisk walk before going to bed will cure my insomnia."

"Well," returned his wife, "I'll clear the room so that you can walk, and you may as well take the baby with you."

The general average of education for women in India is less than 3 per cent.

Building A Disposition

Spirit of Consideration Has to be Cultivated Early

"Well, I do hope that when I reach the age where I have to be taken care of, I shall be willing to let other people have their way instead of insisting upon my own and making it hard for everybody else," said a clear, decided voice as the three women parted at the street corner. They had been discussing the troubles of an acquaintance. As the speaker departed, the two looked at each other with a significant smile. This friend of theirs was one who had great faith in her own wisdom.

"I am afraid that virtue does not develop suddenly," remarked the one. "I suspect that the person who is to be gentle and unselfishly considerate in old age has to begin to cultivate that spirit much further back."

That is the story of so many of our failures to attain our ideals: We do not begin to practice their graces early enough. The strong self-controlled, useful manhood or womanhood does not grow naturally from a careless, self-indulgent youth, and the beautiful old age that is a benediction is not likely to spring from the hasty, domineering spirit that has been allowed to rule middle life. Character is a garden whose gracious flowering calls for early planting.

Super Plane Completed

United States Machine Will Stand Flight to Tokio

A super aeroplane that could make a non-stop flight from the Pacific coast to Tokio and from the Atlantic coast to Paris has been perfected by the Douglas Aircraft Corporation of Santa Monica.

A statement to this effect was made by Donald W. Douglas, head of the corporation, confirming the assertion of Colonel William A. Mitchell, former assistant chief of the army air service.

"The plane we have perfected not only can make the non-stop flights indicated, but at the same time can carry a ton of explosives," said Mr. Douglas. "This flight can be made at the rate of 113 miles an hour."

Sell Art Treasures

The London Daily Express says that the art treasures of the famous palace on the island of Corfu, owned by William Hohenzollern when he was emperor of Germany, are to be sold at auction by the Greek Government, which acquired the property during the war. The sale will begin late this month, and will last several weeks.

50,000 Years Old

Two human skeletons belonging to the Palaeolithic age and believed to be more than 50,000 years old, have been discovered in a cave in the Crimea.

Wrong Charge

Judge.—You are accused of breaking a jug on the head of the defendant. Accused.—Well, I had no intention of breaking the jug.

Old-fashioned ideas may be the best at times, but you can't run an auto by feeding it oats.

Insects Bring Safety

All steel railway cars are now being used on Indian railways. The change was not made for safety reasons but because insects ate up the wooden cars rapidly.

DON'T WAIT!

'Till you get sick. Use Minard's—the great preventative.

Students Enthusiastic Over Court Decision

Privilege to Fight Duels is Restored to Germans

Baden law courts have decided that German undergraduates may still have the privilege of fighting "mensur duels" (sitting each other's faces), exactly as they were permitted to do under the monarchy.

This decision has been made in spite of the law against duelling and in spite of the explicit instructions issued by the late President Ebert against duelling in all its forms.

The decision follows the trial of two Heidelberg students on a charge of duelling, and has aroused great interest in all the sword clubs of the various universities in Germany.

Make your own Mustard Pickles

Home-made mustard pickles. How delicious—and how easy to put up. Here's the recipe:—

MUSTARD PICKLES
1 qt. small onions 1 large cauliflower
1 qt. cucumbers 2 heads celery
2 red peppers

Peel onions, cut vegetables in small pieces, cover with weak brine and let stand overnight. In the morning bring to a boil and drain off.
Take 2 cups brown sugar, 1 cup flour, 6 tablespoons Keen's D.S.E. Mustard, 1 tablespoonful turmeric and 2 quarts vinegar. Boil this mixture for twenty minutes, stirring continually. Pour over vegetables hot. Let stand ten days, stirring every day, then bottle.

Children Cry for

MOTHER:—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Proved safe by millions and prescribed by physicians for

Headache Neuralgia Colds Lumbago
Pain Toothache Neuritis Rheumatism

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetyl-salicylate of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

New Dominion Loan Sets A Record For Government Financing

Toronto.—Judging by orders received for the Dominion loan, 1925 has almost set a record for successful government financing. Orders for financial institutions have been larger than in either of the previous refunding loans, each of which was recorded as so highly successful. Had all the orders received from institutions been accepted in full, only a small amount of bonds would have been available for other classes of investors. It is understood, however, that the large orders have been scaled down by the syndicate to the extent of more than 50 per cent., and, as a result, more than one-half of the loan will be available to the smaller private buyers. In adopting this plan, the syndicate has followed its policy of endeavoring to arrange, as far as possible, to fill all orders from private investors, and to assure a coast to coast distribution of the new loan.

It is a fact that a new Dominion loan brings out a certain class of investor who will allow his funds to remain idle for several months previously. The reception accorded the new loan is a tribute to the financial stability of Canada and Canadians. The fact that Canada has proven herself fully capable of financing her own requirements plays an important part in so strengthening Canada's credit abroad that her securities are in demand in the principal money markets of the world.

Return Historic Shield

Escutcheon Taken From Quebec Is Presented to City After Long Sojourn in England

Quebec.—Coinciding with the one hundred and sixty-sixth anniversary of the battle of the Plains of Abraham, this battle and the subsequent capitulation of Quebec to the British troops were revived to the world when the escutcheon presented to the historic city by a king of France, taken from the walls of Quebec by General Murray after the capitulation of the city, and afterwards handed to the town of Hastings for safekeeping, was officially returned to the city of Quebec as a goodwill offering from England to French Canadians.

Hon. P. C. Larkin, Canadian high commissioner in London, handed over the shield to Quebec as the official representative of the town of Hastings, England, after the unveiling ceremony by Hon. N. Perreault, lieutenant-governor.

British Subjects Only

Government of Western Australia Will Not Employ Foreigners

Perth, Australia.—The Government of Western Australia, having learned that foreigners have secured a large proportion of the work offered in connection with the clearing of land for the purpose of cultivation, has decided that in future any money advanced made to settlers by the Agricultural bank to finance such work shall be made on the condition that only British subjects shall be employed.

Hoey With Wheat Pool

Winnipeg.—The appointment of R. A. Hoey, M.P. for Springfield, to the position of assistant director of the newly-formed department of publicity and education of the Manitoba Wheat Pool, was announced here. Mr. Hoey's withdrawal from political life was foreshadowed in a Canadian Press dispatch.

Ku Klux Klan in Berlin

Berlin.—The Berlin police announce that they have uncovered a movement, headed by three United States citizens, and participated in by about 1,000 Germans, for the establishment of an order to be known as the "Knights of the Flery Cross," along the lines of the Ku Klux Klan.

Bessarabian Pearls On Trial

Vienna.—The Abende says it learns that 800 Bessarabian pearls are now on trial at Kishinev, Rumania, by a military tribunal. They were arrested by a Rumanian punitive expedition following discovery of an alleged plot to deliver Bessarabia over to Soviet Russia.

Fruit Houses Amalgamated

Winnipeg.—J. A. Simington, Minneapolis, director of the Nash Fruit Company in Western Canada, has confirmed a previous announcement that the Nash companies had been amalgamated under the name of the Nash-Simington Company.

W. N. U. 1594

Cabinet Ministers Sworn In

Hon. J. A. Robb Succeeds Fielding As Minister of Finance

Ottawa.—The cabinet re-organization was officially completed when Hon. J. A. Robb was sworn in as minister of finance and Hon. Herbert Marshall, as minister without portfolio. The two ministers were sworn in by E. J. Lemaire, clerk of the privy council, in the presence of His Excellency Lord Byng at Government House.

Should the present government be returned to power, there is likely to be further re-adjustment of the cabinet.

Two ministers, Hon. Charles Murphy and Hon. Dr. Beland are, it is understood, retaining office only until the elections are over and there will then be some re-adjusting of portfolios.

Mr. Robb has been acting minister of finance for some time, owing to the illness of the veteran parliamentarian, Rt. Hon. W. S. Fielding, who now has been retired, after many years of service to his country.

Dease Lake Promise Was Not Fulfilled

Disappointed Miners Start Trek Back From Cassiar Field

Telegraph Creek, B.C.—The out-trail from the Cassiar is being trodden today by a host of disappointed miners whose hopes of quick wealth in the placer fields of Dease Lake have been blasted by the cruel reality of life in the inhospitable northland.

A few small strikes have been made, but there is little to show for all the excitement that was stirred up last winter by the announcement of the discovery of free gold in the ancient mining camp which was abandoned in the late nineties with the dawn of the Klondyke glory.

Missing Seaplane Rescued

Commander and Crew of United States Seaplane Are Found Alive

Honolulu.—Captain John Rodgers, commander of the missing seaplane PN-9 No. 1, and his crew of four men, were found alive 15 miles east of Kaula, by the submarine R-4.

Rodgers and his crew left San Francisco in an attempted non-stop flight to Honolulu on August 31. The following afternoon, 24 hours after his seaplane, the PN-9 No. 1, hopped off, the plane and crew disappeared about 300 miles from its destination. Last messages from the PN-9 No. 1 stated that its gasoline supply was about exhausted and a forced landing was expected.

Heads Grain Exchange

Officers Elected at Winnipeg For the Ensuing Year

Winnipeg.—D. C. MacLachlan, manager of the Western Elevator Company, was elected president of the Winnipeg Grain Exchange for the term of 1925-26, at the annual meeting of the exchange members. A. Thompson, manager of the International Elevator Company, and N. J. Breen, western manager of the Lake of the Woods Milling Company, were chosen vice-presidents. Dr. Robert Magill was returned as secretary by acclamation.

The executive council of committees were also selected.

Advocates Bay Route

Regina.—That the Hudson's Bay Railway is feasible and that an early completion of the construction is desirable is the opinion of C. C. Cooke, of this city, who has just returned from a trip to the bay by rail and water, with a party of western business men. Much material and considerable water power is available for harbor facilities at the end of the line, he states.

Snipe Hunter Bags Large Seal

Quebec.—While hunting snipe along the St. Lawrence River at the mouth of the Grand River, Elzeur Morel bagged a 255-pound seal. Equipped with only a small rifle, Mr. Morel had to creep over the rocks to within a few feet of the seal before he could risk his first shot.

Premier Dunning Recovers

Regina, Sask.—Premier Dunning has recovered sufficiently from his operation to be able to leave the General Hospital. He is now at home, making such progress that he hopes to be able to return to his office within a week or ten days.

Cowboy-Earl Likes Ranching

Wyoming Man Who Inherited Title Will Remain in U. S.

Sheridan, Wyo.—Oliver Henry Wallop, aged 63, Wyoming rancher, who succeeded to the title of Earl of Portsmouth through the death of his elder brother, John Pellos Wallop, seventh Earl of Portsmouth, in London, will retain his United States citizenship and legal residence in this country, and plans to continue living on his 3,000-acre ranch near Sheridan after he assumes the title.

The new earl did not appear to regard his rise to the British peerage as extraordinary, and his answer to queries about his departure for England to assume the earldom was that he intended merely to visit his native land, be invested with the title, and then return to his cattle ranch.

During the fall of 1887, Wallop went to Canada on a hunting expedition. From there he wandered to Wyoming to visit a colony of Englishmen near Sheridan. He liked it, and bought a ranch.

Plans For Super-Zeppelin

U. S. May Build One Twice As Large as the Shenandoah

Akron, O.—Plans for a gigantic super-zeppelin twice the size of the Los Angeles or the ill-fated Shenandoah, and safer than either, are being drawn up here by the experts of the Goodyear-Zeppelin corporation.

Dr. Karl Arastoin and Capt. Ernst Lehmann, German zeppelin experts, who are now vice-presidents of the concern, are in charge of the plans. The proposed super-zeppelin has been christened in advance the GZ-1.

The experts look forward not only to building this super-ship, but to a day when they will build yet larger ships.

They believe that the larger ships would weather the most severe storm. In fact, they feel that smaller ships can also ride the severest storm.

The proposed GZ-1 would hold 5,000,000 cubic feet of helium. The Los Angeles holds 2,500,000 cubic feet, while the Shenandoah held 2,150,000.

Seize Canadian Schooner

New London, Conn.—The Canadian schooner Dawn, of Lunenburg, N.S., was seized in Narragansett Bay when it grounded while attempting to escape from a patrol boat.

ACTION ON B.C. GRAIN RATE CASE TO BE DEFERRED

Vancouver.—Decision on British Columbia's application for revision of the scale of rates on grain coming west for domestic consumption will not be rendered prior to a general revision of freight rates, according to a letter received by the Vancouver board of trade from Hon. H. A. McKeown, chairman of the board of railway commissioners for Canada.

Mr. McKeown takes the position that the seasonal movement of export grain demanded early action, while the same element of urgency was not present in the case of domestic grain rates. The same applies to express rates, upon which the board has been asked for a judgment.

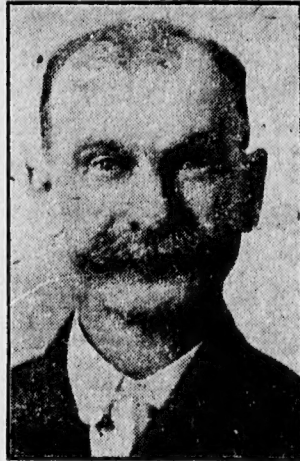

Victoria.—That the railway commission's recent order equalizing export grain rates will not be affected by the resolution of three members of the commission who did not take part in the judgment, was the opinion expressed by Premier Oliver after he had examined copies of the documents.

Earth Is Slowing Down

Washington.—The earth is slowing down, says a recent publication of the Smithsonian Institution. But there is little danger of a cessation of its rotary motion, for the rate of slowing down is only one thousandth of a second per century.

This means a loss of a minute in six million years. Scientists estimate that ages and ages ago the earth revolved so fast that a day was three or four hours.

Veteran Newspaper Man Passes

W. B. Ballantyne, editor of the Journal at Emerson, Man., died suddenly at his home in Emerson, Man., Monday, September 7, from a stroke of paralysis. Mr. Ballantyne was one of the veterans of journalism in Manitoba. He had been publishing the Journal for over 30 years, and previous to that time had been foreman in the office of the weekly, which has a long record of service to the district. Last year Mr. Ballantyne, with Mrs. Ballantyne spent the summer in the Old Country, visiting Wembley with the Western Canadian editors. Mr. Ballantyne was on the executive of the Western Press Association, was a prominent Freemason, and is survived by his wife, who formerly was Mrs. (Dr.) Henderson, pioneer of Winnipeg and Stonewall. There are no children.

APPOINT BOARD FOR ADJUSTING LABOR DISPUTES

Ottawa.—The establishment of a board of adjustment on the Canadian National railways to deal with grievances or disputes not otherwise adjustable arising from the application of wages and working conditions schedules as affecting clerical, station, shop, shed, roundhouse and similar classes of employees was made public by representatives of the employees. The new board is similar in constitution to board of adjustment No. 1, which has been functioning for a number of years in connection with grievances of conductors, engineers, firemen, trainmen, maintenance of way employees and others.

Under the agreement just signed by representatives of the railways and the employees, the new board will be composed of eight members, four from the railways management and four from the employees. The chairman and vice-chairman will hold office six months and will be selected alternately from the management and the employees. To the board will be brought all matters of dispute arising from the application, non-application or interpretation of the schedules, and which have failed in settlement between the officers of the railway and the representatives of the employees. Decisions of the board will be final and binding upon both parties.

Has Denounced Bolsheviks

Premier of Australia Takes Stand Against Communists

Melbourne.—The disturbed conditions in Australia have caused Premier Bruce to take a definite stand against the Communists.

In a public address here the premier denounced the local exponent of Bolshevism, and asserted he would not hesitate to appeal to the people for endorsement of his action. If necessary, he would seek a mandate for further action to insure peace and good government.

Warrants have been issued for four hundred Melbourne seamen for their part in the unofficial strike against the recently announced wage decrease.

Japan Fighting "Red" Propaganda

Country Fears Effect of Intercourse With Soviet Russia

Tokio.—Fear of Bolshevik propaganda in Japan is ever present among the heads of the government and it was recently reported that the home department is planning to introduce a bill at the next Diet session for the organization of a special police service to deal with the situation. It is said a yearly outlay of 1,000,000 yen will be asked for this purpose.

The government has not been amiss in adopting measures calculated to be effective in coping with untoward developments that may follow the reopening of the country for intercourse with Soviet Russia. Of these measures the most important is, of course, the new peace preservation law, which the Diet voted at its last session.

It has been found that channels for the introduction of "Red" propaganda are rapidly increasing owing to the growing frequency with which the peoples of the two countries are exchanging visits for commercial, touring and other purposes and also because of the freedom with which new publications are being imported.

The home office regards it as imperative in consequence that a police service of special nature be perfected to deal with the problem of propagation of radical thoughts.

Canada Not Thinking Of Annexation

Has No Idea of Joining U. S. Says Premier King

Toronto.—"Canadians are no more thinking of annexation with the United States than citizens of the United States are thinking of annexation to the British Empire," said Rt. Hon. Mackenzie King, premier of Canada, at the directors' luncheon in "International Day" of the Canadian National Exhibition.

Mr. King added, amid laughter, that the idea of annexation of Great Britain and the United States was one that he would prefer to see brought about before the joining of Canada to the United States was considered.

The prime minister said that so far as he was concerned he would oppose with all his might the idea of annexation of Canada and the United States.

UNITY IN CANADA IS STRESSED AT QUEBEC MEETING

Quebec.—Unity on the part of all the provinces in the Dominion was the keynote of the addresses delivered here at the reception tendered by Hon. Mr. Perreault, lieutenant-governor of Quebec, to lieutenant-governors of Canada.

Among the speakers were: Sir James A. M. Aikins, lieutenant-governor of Manitoba; Col. the Hon. Harry Cockshutt, lieutenant-governor of Ontario; and Premier Taschereau of Quebec.

Hon. Harry Cockshutt said the drawing together of the different provinces was greatly to be desired in Canada. Sir James Aikins said the unfortunate thing was that Canadians did not understand each other.

"When I think of Canada, of its splendid future," he said, "and when I think of the province of Quebec, I call it the anchor of stability upon a troubled sea, as Canada could not be Canada if it were not for Quebec."

Premier Taschereau, after welcoming the lieutenant-governors and explaining the hopes and ambitions of the French-Canadians, said:

"Our motto is unity in diversity, and nowhere in this Dominion will you find a better Canadian spirit and a more friendly and sympathetic feeling towards those who will reciprocate with us."

British Columbia's perpetual summer, western wheat, Ontario's industrial possibilities, Quebec's natural resources and the Maritime's sea and forest wealth, if united, are the foundations of our great future."

Canada's Wheat Yield Estimate Is Placed At 391,816,000 Bushels

Canadians Coming Back

Over 50,000 Have Returned From U. S. In One Year

Ottawa.—Immigration to Canada for the first three months of the present fiscal year, that is, from April 1 to June 30, 1925, totalled 32,449, according to a report issued by the department of immigration.

Of this total 16,094 came from Great Britain, Northern Ireland and the Irish Free State, 5,207 from the United States and 11,048 from other countries, almost entirely from Northern Europe.

In the same three months 9,141 Canadians who had been in the United States for six months or longer, and who went to that country to settle, returned to the Dominion.

Since the department of immigration and colonization began to keep a record of these returning Canadians on April 1, 1924, a total of 52,916 have come back up to the end of last June.

Business Was Unprofitable

Britishers Are Less Inclined to Invest in Rum Running

London.—The offensive of the United States prohibition forces against Rum Row and the liquor smugglers is having a marked effect on the export liquor traffic of the British Isles. This traffic is now going through such a lean period that no money is available any more to finance rum running expeditions, and exports of liquor destined for the arid United States have dropped almost 50 per cent. since January.

The boom of 1923 and 1924, when hundreds of thousands of pounds of Englishmen's money was ready to finance rum running adventures, has died out. So has the inclination among some people in Great Britain to tamper with the blockade which the United States Government has thrown around its coasts.

In A Quandary

Must Give Up Title Or Renounce U. S. Citizenship

Sheridan, Wyo.—Despite his announced intention of investing himself with the hereditary British title of Earl of Portsmouth, and at the same time remaining a United States citizen, Oliver Henry Wallop, Sr., who acquired the title by death of his elder brother, probably will have to forego either the earldom or his citizenship in this country.

Such was the opinion expressed by federal naturalization officials over the country when news of Wallop's elevation reached them.

SUNDAY SCHOOL LESSON

SEPTEMBER 20

PAUL WRITES TO THE THESSALONIANS

Golden Text: In everything give thanks. I. Thessalonians 5:18. Lesson: I. Thessalonians 1 to 5. Devotional Reading: II. Thessalonians 2:13-17.

The Text Explained and Illumined Paul's motives were genuine, verses 1, 2.—"You yourselves, brothers, know that our mission to you was a success," Paul writes the Thessalonians.

"Although at Philippi we had suffered greatly and had been insulted (recall the scourging and imprisonment there, lesson IX), yet on we came to our city and boldly declared to you the gospel of God in spite of great opposition." Recall the words of Jesus in Mt. 10:23. "We waxed bold in our God," thus Paul asserts that the strength to persevere in spite of suffering was divinely given. And his argument here is that had his motives not been the best, he would not have persevered in his work under such untoward circumstances. "You never understand Paul right," as Professor Ramsey says, "unless you estimate his action on the highest plane of human motives."

For the slanders which led Paul to make this defense of his motives and methods as a missionary, turn to the Suggestion for Beginning the Lesson, First Topic.

"Looked at as a whole, this passage warns us against slander. Paul was slandered; they said he was a very smart man, who looked well to his own interest and made dupes of simple people. The deliberate wickedness of such falsehoods is disabused, but it is not so very rare. Numbers of people who would not invent such stories are glad to hear them. Be on your guard against sympathy with deflection. Never give utterance to a suspicious thought. Never repeat what would discredit a man, if you have only heard it and are not sure it is true; even if you are sure of its truth, be afraid of yourself if it gives you any pleasure to think of it. Love (thinketh no evil; loveth rejoiceth not in iniquity" (Dr. James Denney).

Ottawa.—Canada's wheat yield of 391,816,000 bushels for 1925 is the preliminary estimate of the bureau of statistics recently issued. The yield last year was 262,000,000 bushels.

The average yields in bushels per acre for all Canada in 1925 are reported as: Fall wheat 29.9, last year 28.8; spring wheat 17.4, last year 11.3; all wheat 17.8, compared with 11.9 bushels per acre last year.

The fall wheat estimate for this year is 23,697,000 bushels and spring wheat 368,122,000. The estimate for oats is 514,837,000 bushels, as compared with 405,976,000 bushels in 1924. The rye crop for 1925 is estimated at 16,527,000 bushels, compared with slightly over 13,000,000 in 1924.

In the Atlantic provinces "the weather has been ideal and a bountiful harvest is anticipated."

In Quebec the prospect for grain crops is generally favorable.

In Ontario "splendid harvest weather has prevailed, threshing is well advanced and grain crops are yielding well above the average." The weather in Manitoba has been favorable for harvesting, and threshing will become general at the end of the month. Considerable damage has been caused by rust, both yields and grade of wheat being reduced but the yields are still generally above those of the ten-year average. In Saskatchewan all grain ripened early. Except for showers, about August 23, the weather was very favorable for harvesting, and cutting was well advanced at the end of the month when threshing had begun. The main source of the injury to crops are drought and rust.

In Alberta ideal weather has prevailed for harvesting, but heavy rains fell in the north. Prospects generally are for over average crops. In British Columbia, showers during late August greatly benefited pasturage and late crops.

Canada-U.S. Drug Pact

League of Nations to Study Recent Extradition Treaty

Geneva.—Government representatives in the League of Nations are to study the recent extradition treaty between Canada and the United States covering offenders against the laws concerning opium and other dangerous drugs, with a view to the conclusion of similar treaties among them. A recommendation to this effect was approved by the league council on recommendation of its permanent opium commission.

Anthracite Prices Advance

Predicted Cost Will Further Increase If Strike Continues

Washington.—Complaints that retailers are beginning to increase prices of anthracite coal are arising from a number of cities. Predictions are made that prices will be still further increased if the strike continues, and that consumers here and in Canada will bear the burden.

Meantime, there are no signs that the administration plans to intervene in the strike, and the outlook will apparently drift on indefinitely.

Increased Output of German Wheat

Ottawa.—The official statement of Germany's production of wheat this year is 106,567,000 bushels, against \$9,200,000 last year, according to a cablegram received by the department of agriculture.

The area sown to wheat in Argentina, according to a revised estimate, is 18,829,000 acres, as compared with 17,792,000 last year, and the condition of the crop is excellent.

Want Embargo Removed

Vancouver.—Requests for the lifting of an embargo on Canadian apples, which has been enforced for the last five years, have been filed with the Japanese Government, according to consulate officials here. Samples of the new crop are to be shipped to Japan as soon as possible, and if they are pronounced free from the larvae of the codling moth, the embargo will be lifted, it is expected.

50 Million Feet of Lumber Destroyed

Hawkesbury, Ont.—More than 50 million feet of lumber, property of the Hawkesbury Lumber Company, Ltd., was destroyed by fire which broke out in a pile at the west end of the island on which the company's yards, mills and houses are located just opposite this town on the Ottawa River.

The loss is set by R. L. Blackburn, of Ottawa, managing director, at \$7,000,000, which is stated to be well covered by insurance.

Tractors and Threshers for the Harvest

Part of a record shipment of tractors and threshers from the J. I. Case Threshing Machine Company, of Toronto, which left there recently over Canadian Pacific lines for the western wheat fields.

The Man with Money

THOSE who have saved are able to buy, and the man with money in the bank is always ready for any opportunity or emergency.

Determine to save a certain sum—say \$100. That accomplished, save a second \$100, and you will soon have \$1,000 in the bank.

Ask for our booklet, "The Measure of Your Income." It will help you.

Friday at 8 p.m. Public Worship in the Church.
You are cordially invited to worship with us.

Keep your eye on the label of this paper and jack us up if we have not given you proper credit. We are making many corrections to our mailing list and some mistakes may be made.

Sometimes when a man becomes head of something he also gets his foot into it.

At that, many a man would rather stand for a skunk than have to pay for a coat made out of its hide.

Our idea of a backslider is a fellow who doesn't learn something new every day.

The world War lasted four years. The war over the war debts is now in its seventh year.

There may be such a thing as sleeping sickness, but it's a glorious Sunday-morning-feeling with most of us.

Ladies' Tailor: Do you want a belt in the waist? Customer: Do you want a crack in the jaw?

During the siege of Paris in 1870 letters limited to twenty words were delivered in the French capital by pigeon-post, half a franc a word being charged by the postal authorities.

GROWTH OF ALBERTA'S WHEAT POOL

The organization of the Alberta Wheat Pool in the middle of the summer of 1923 attracted world-wide attention. It was said at the time that success for such an adventure was impossible, but so great was the enthusiasm for it both amongst the farmers and the business men of the province that instantaneous success met its first efforts. Although the members' agreement and by-laws and other necessary papers were not drawn up until August of that year, the canvass for members which then ensued met so fine a response that by November, 1923, there were enrolled 25,601 members, representing a total acreage of 2,416,413 acres. Confidence in the pool continued to grow, additional members were constantly added to the lists so that by September 16, 1925, the membership had increased to 32,162, representing a total of acreage under contract of 3,134,047 acres.

Although so short a time was open to organize the operations of 1923 the Alberta Wheat Pool handled in 1923 34,222,833 bushels of wheat, that had a total value to the farmers of this province of \$37,516,523. The crop of 1924 was not so uniformly good, but in that year the Pool handled 23,025,135 bushels, or a total value of \$35,050,000.

The deductions made from the 1923 pool for reserve funds were \$211,580, and from the 1924 pool approximately \$550,000. The cost of operation per bushel was, in 1923, 2-5 of 1 cent, and in 1924, approximately 3-8 of 1 cent.

In sending out payments for the 1924 crop, including the first, second interim and final payments, \$5,000 cheques were issued.

The main staff to care for this immense amount of work is located at the head office of the wheat pool in the Loughheed Building, in Calgary, where some 70 employees are busily engaged. An office is also maintained at Edmonton and one at Winnipeg.

MISCELLANEOUS

Notice under this heading 15 words or under 50c. first insertion and 25c. each subsequent insertion—3 weeks \$1. Over 15 words one cent per word for each insertion.

When any brands have to be cut a charge of 35c. each is made.

Brand reading notices \$1.50 each animal, three insertions. Over 15 words 1 cent per word extra each insertion.

FOR SALE—Threshing outfit. J. I. Case 15x27 engine and 26x47 separator in good working order. Just finished threshing large crop this year. Located 20 miles south of Gleichen. Phone M2025, Calgary. Write Shouldice, 37 Canada Life Building, Calgary.

FOR SALE—Good Brood Sow with pigs for sale. W. M. Lyle, Arrowood.

LADIES ATTENTION

W. K. Brown, the tailor, is handling an article which Removes Grease and Oil Stains from Serges, etc. Call for a demonstration.

TENDERS WANTED

Tenders will be received up to 10 o'clock noon, Saturday, October 10th, for the construction of an addition 32x24 feet to the Queenstown school District No. 1708.

For plans and specifications apply to,

W. F. MALLETT
Secretary-Treasurer.
Queenstown, Alta.

Phone R206 Milo.

Wait till "Si" comes to town—the political pot should sizzle.

An inquiring reader wants to know whether it is proper to eat soup or to drink soup. It's a close question; better just gurgie it.

As you sew so also may you rip.

COMING EVENTS

Ads. under Coming Events 25c. per count line, unless otherwise advertised in the Call.

Oct 2—Brass Band whist drive and dance in Gleichen Community Hall.

Oct. 8—Community Auction Sale at Gleichen Livery Barn.

TOWN AND DISTRICT

For results of the Hat elections Phone 6. Billy knows.

Oct. 29, the date of the Federal election, has been declared a half holiday.

Rumor has it that the Bank of Nova Scotia will open a branch at Arrowood.

When you know of any news send it to the Call. Our Phone is an even dozen—12.

Queenstown must be growing. Secretary W. F. Mallett is calling for tenders for an addition 32x24 to their public school.

To-morrow the Progressives meet in Calgary to name their candidate for Bow River.

See that your name is registered with Peter MacLean if you would vote on the 29th.

The dance which was to have been held on Friday at Arrowood has been postponed indefinitely.

Friend John is ever a Milo booster but has not yet forgotten "The Terrible Tales of the Trails."

W. P. Pinder, last week completed the work of painting Alf Daw's fine new barn, north east of town.

With three candidates seeking honors from the electors of Bow River constituency it is not hard to pick the winner.

S. A. Hall arrived by special train about 9 o'clock last night from England, where he has been for the past three months. Looks fine.

It looks as though The Call will have to get a special waste paper basket for political dope. So far it is all coming from a distance.

So far politics is a very quiet subject in the Gleichen district. But the fun should start pretty soon now, when all three candidates get a-go-in'.

Mr. and Mrs. Prestwich have received word from their son Ralph in California of the arrival of a fine boy at his home. Congratulations.

The latest report of the Medicine Hat by-election places Charles S. Pingle, the Liberal candidate, leading with 443 votes in 38 polls out of 66 heard from.

Tom Scott, head mechanic of the Carseland Garage, Carseland, arrived in town Sunday and his many friends are glad to see him looking so prosperous.

Dr. Farquharson is the happiest man in town this a.m. having received word of the arrival of a fine bouncing son at Calgary, about 9 o'clock last night.

Hugh Beach, Ben James, Jr. and Sid Madden have gone to Edmonton to attend the University there. Their many friends wish them every success in their studies.

The Home cooking sale and afternoon tea held by the ladies of the United Church last Saturday afternoon was, in spite of the adverse weather, a real success. The receipts were nearly thirty-five dollars, and the ladies appreciate both the donations of baking and the patronage extended them.

Considering the many complaints of the school examinations this year Gleichen pupils have done exceedingly well and there is quite an exodus of Gleichen pupils to the higher schools, colleges and university just now. In fact, those who have been watching closely state they see no school in Alberta that can boast of a better per centage who passed than Gleichen, which certainly speaks well for our teaching staff.

Men's happiness is largely in proportion to the distance he lives from his distant relatives.
